

MAT 100 Precalculus

Homework 3

Basic Information

This assignment is due on Gradescope by **1:30 PM on Thursday, September 24**.

Make sure you understand MHC [honor code](#) and have carefully read and understood the additional information on the [class syllabus](#). I am happy to discuss any questions or concerns you have!

A component of this class is helping you understand *why* the math you use works the way it does. To that end, make sure you show all your work as you will be graded on the *process* you use, not just your final answer. And if a question asks you to explain *why* something is true, be sure to answer that part of the question in complete sentences.

Homework will be graded for correctness, and I will point out where mistakes or errors are made. Each homework will be graded *Excellent*, *Satisfactory*, or *Unsatisfactory*. The [course rubric](#) explains more about the distinctions of these categories.

Turn-In Problems

1.2: 4

1.3: 36, 40 (you can use Desmos for the last problem! And note that $t^{2/3} = \sqrt[3]{t^2}$)

1.4: 6, 14, 24

1.5: 2, 6, 8

Additional Problems (to do on your own, not to turn in)

1.2: 3

1.3: 35, 39 (you can use Desmos for the last problem!)

1.4: 7, 13, 23

1.5: 1, 5, 7
